

# THE JOHN B. PIERCE LABORATORY

Physiology and Health in the Modern Environment

Affiliated with Yale School of Medicine

## Onsite Technical Services & Machine Shop

- Solidworks/Mastercam 3D Modeling
- CNC Machining, 3D Printing
- Laser & Waterjet Cutting
- Turning, Milling, Assembly
- Metals, Plastics, Wood
- Electronics Design & Fabrication
- Embedded Controls & Programming
- Software Development & Automation

Our in-house machine shop and team of experienced engineers, CNC machinists, and designers can support your product design and prototyping needs.

We can also assist with outsourcing and ramping up production through our network of associates. Our affiliation with Yale University provides us access to advanced fabrication services.

Located on the Yale Medical School campus, with private parking, comfortable meeting rooms, and a cozy café, we provide a welcoming environment for our guests as we discuss your technical needs.

## To Get Started

Initial consultations are free and we provide estimates and quotes for projects or simple jobs as needed.
